## ***Your Impact on Others: Authentic Self-Leadership to Inspire Teams***

The number one thing that stands in people's way to grow, change and develop is their ability to change their habits. The will is there but we have been brainwashed into thinking that changing our habits is difficult. But what if we knew that change is easy if you have the right knowledge and the right tools? In ***Your Impact on Others: Authentic Self-Leadership to Inspire Teams***, Grant encourages you to understand behaviour from the 'inside-out' of neuroscience and how the brain works, while also keeping an eye on the 'outside-in:' how we understand others and how others see us. And he makes the process easy by providing a change assessment that shows you where you personally need to focus, and then with deliberate care, provides the bite-size knowledge and tools that will enable you to make a transformation in areas that are most important for YOU to lead yourself more authentically and have more intentional positive impact on others.

## ***Evolving Culture for a High-Performing Organization***
